Dated, March 25, 1981

Dear Mr. Yorke Slader:

RE: NATIONAL ENERGY BOARD INFORMATION REQUEST
DATED MARCH 25, 1981

IN THE MATTER OF the National Energy Board
Act and the Regulations made thereunder,
and the Northern Pipeline Act; and

IN THE MATTER OF a public hearing respect-
ing the tolls to be charged by Foothills
Pipe Lines (Yukon) Ltd. in the operation
of its prebuild facilities and other
related matters; and

IN THE MATTER OF National Energy Board
Information Request dated March 25, 1981
pertaining to Order RH-3-81.
File No.: 1562-F6-2

Foothills Pipe Lines (Yukon) Ltd. has prepared Volumes I and II of document entitled "Supplementary Working Papers In Response To National Energy Board Information Request dated March 25, 1981". With respect to Board Requests Nos. 1 and 4, eight (8) copies of these additional working papers have been delivered to the Board, two (2) copies to the Northern Pipeline Agency and a copy has been made available for public viewing at our office in Calgary, in accordance with the instructions of the Board regarding working papers contained in its letter of February 4, 1981.

Please note that Volume I of this document provides a typical compressor station (Station 42) cost estimate. Copies of drawings pertaining to this cost estimate will be supplied to the Northern Pipeline Agency on March 27, 1981. In addition, copies of drawings at the estimate preparation stage for Compressor Stations 367 and 394 will be provided to the Agency at that time.

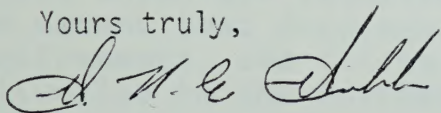

With respect to Board Requests Nos. 2 and 3, "current drawings" for the compressor stations, meter stations and South Saskatchewan River Crossing were not used by Foothills in the preparation of the final design cost estimates. Foothills drawings which were used to prepare its final design cost estimates have been provided to the office of the Northern Pipeline Agency in Calgary.

Foothills believes that the additional working papers supplied in response to Board Requests Nos. 1 and 4 will enable the Board's advisors to reach a complete understanding of the method by which the estimates were prepared.

As required, copies of both the letter from the Board dated March 25, 1981 (attached) and this response have been served on those named in the Hearing Order, and a copy of these documents is available for public viewing in the offices of Foothills Pipe Lines (Yukon) Ltd. through myself.

I trust this information meets your present requirements. Should you require further information or have comments on the enclosed material please so advise.

Yours truly,

H.N.E. Hobbs
Supervisor, Government Approvals

Dear Mr. Hobbs:

Re: Foothills Pipe Lines (Yukon) Ltd. - Hearing -
to be Held Pursuant to Order No. RH-3-81
- Working Papers

The Board, in its letter to the Company of 4 February 1981, addressed to Mr. Murray E. Stewart, specified that the filing of working papers requested at that time was essential to the issues to be considered in the hearing to be held pursuant to RH-3-81. While the Company responded to this request with its filing of 26 February 1981, consisting of six volumes of documents, the Board found it necessary to issue three requests for additional information. The Company has responded to each, but the responses to Information Request No. 1 and to Information Request No. 3 have proved inadequate.

You will find attached a detailed listing of the working papers which are required and which have yet to be received. To the extent that drawings are included in this list of outstanding requirements, the filing of such drawings may be limited to deliveries to the Northern Pipeline Agency's office in Calgary.

The Board would like to reiterate the fact that the availability of all of these working papers is essential to the Board's consideration of the Final Design Cost Estimates for the facilities to which they relate. Because of the time required for detailed review of these filings after receipt, the Board may find it necessary to postpone that portion of the hearing to deal with these matters. The Board will announce the rescheduling of the corresponding portion of the hearing after the filing is received.

Since this letter and any letter in reply thereto are considered by the Board to constitute part of the record in relation

to this hearing, copies of this letter and reply correspondence are to be served on those named in the Hearing Order or any amendments to it which may be issued, and are to be available for public examination.

Yours truly,

A handwritten signature in cursive script, appearing to read "G. Yorke Slader".

G. Yorke Slader,
Secretary
